Education

Regulatory considerations of C&G therapies

Suzanne Einmahl, PhD

2 April 2025 | 4 – 5 pm (CET) | Online Webinar

Join us for an insightful webinar on Regulatory Frameworks for Cell and Gene Therapy. This session will explore the latest regulatory guidelines, challenges, and best practices in the development and approval of cell and gene therapies.

Whether you're a researcher, clinician, or industry professional, this webinar will provide essential knowledge to navigate the complex regulatory landscape and accelerate the path to market. Suzanne will share some practical aspects to have in mind when transitioning from fundamental to translational research. She will also provide concrete examples why implementing a regulatory strategy early on helps optimizing drug development.

Suzanne Einmahl (Ph.D. in Pharmaceutical Sciences), shares her insights in regulatory affairs in Cell and Gene Therapies. Suzanne is an independent consultant in regulatory affairs and a medical writer at Albedo Consulting Sàrl, that she founded in 2021. Previously, Suzanne spent over 17 years as a Senior Scientific Consultant at Triskel Integrated Services SA. She also served as the Director of Regulatory Affairs at SFL Regulatory Affairs & Scientific Communication GmbH. Over her 23 years of experience, she contributed to the development of more than 60 medicinal products, including cell and gene therapies. Her expertise includes regulatory strategy, interactions with regulatory agencies, preparation and submission of marketing applications in the EU and US, and clinical development strategy.

Online via Zoom | Please register [here!](#)

Registration to the webinar is required in advance. Please register no later than **1st April 2025**. Please note that you will receive the Zoom Meeting link and access code the evening before the lecture and that access to last minute registrations, cannot be guaranteed.

In unforeseen cases, the organizers may change and update topics and speakers.
